VIESUS™

AUTOMATIC IMAGE CORRECTION

Create beautiful memories - fast & easy.

With the fully automatic image enhancement software VIESUS™

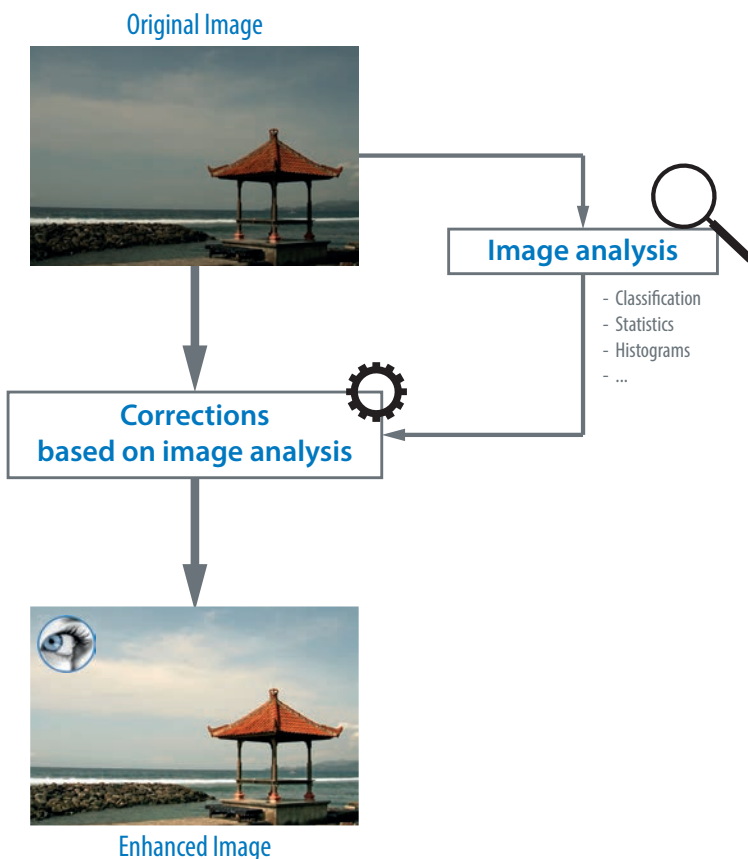

VIESUS™

- ▶ Software that takes everyday digital camera / smartphone image and makes them look more beautiful
- ▶ Designed for fully automatic, unattended image enhancement
- ▶ Used by leading photo labs worldwide
- ▶ Processes tens of millions of images per day - fast and reliable
- ▶ Directly applicable to any output device or technology

VIESUS™ - Overview

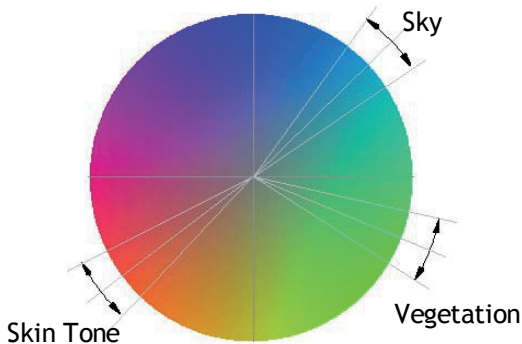

A fully automatic image enhancement that incorporates all image correction steps, such as:

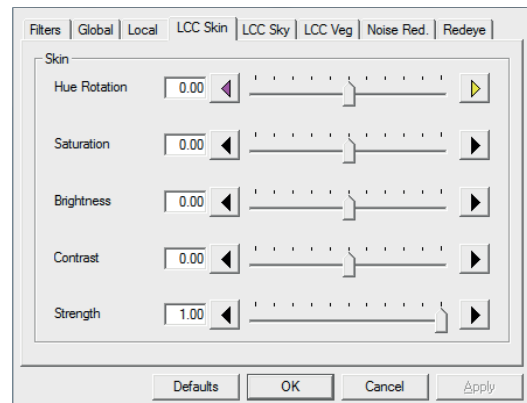

- ▶ Correction of over- and underexposures
- ▶ Removal of color casts
- ▶ Recovery of details lost in shadows
- ▶ Restoration of lost contrast
- ▶ Red-eye correction
- ▶ Noise and grain reduction
- ▶ Up- and downsampling
- ▶ Sharpness control

VIESUS™ - Advanced Enhancement Settings

- ▶ VIESUS™ is using default settings that allow an immediate start
- ▶ Freedom and flexibility to adjust processing parameters

Local color corrections: skin, sky and vegetation tones can be adjusted

Example: regional differences: people of various cultures have different tastes of skin tones

14 enhancements
with just ONE click

VIESUS™ PDF

automatically optimizes pdf-documents. The program extracts images from PDF-documents, enhances them and puts them back.

VIESUS™ Folder Enhancer

is a hotfolder solution for a fully automatic enhancement process.

VIESUS™ Library

- ▶ Most customers ask about library integration
- ▶ No hardware restrictions / full flexible usage
- ▶ Precompiled custom library + API Documentation + sample code and wrapper classes (including: .Net, C#, C / C++, VB)
- ▶ Integration in custom workflows, cloud servers and own products (e.g. kiosks, client software, ...)
